

What Is Legal Authority?

I

Legal Authority helps attorneys and law students manage their career moves more effectively and successfully. We are not a **recruiting firm** retained by a law firm or company to screen candidates for positions. Legal Authority is working on your behalf, helping you contact employers that meet your needs. By making more quality contacts, you can produce more phone calls, interviews, and job offers than you can by reaching employers through a recruiter and risking a price tag of 25%-50% of your salary affecting your chances negatively. This is accomplished through the design of high impact resumes and their targeted distribution in the marketplace.

Free Resume Critique and Marketability Assessment

If you would like to increase the impact of your resume and increase the effectiveness of your overall career marketing, let our Attorney Employment Advocates answer your questions about your career goals. We will also explain how Legal Authority's services will be able to assist you in your search. You can call us at 1-800-283-3860 or wait for us to contact you to schedule your free critique. DELAY IS EXPENSIVE. Each month you remain under-employed or unemployed can cost you thousands of dollars. In addition, under-marketing yourself is the single most expensive thing you will do in your life. Put our resources to work for you. Just by registering, you have made a giant step in that direction. We look forward to helping you meet your career objectives.
