

## Using Legal Authority for Law Student Jobs

I

I am writing to tell you a secret you may not know. Thousands of law students just like you use Legal Authority to find positions each year. In fact, at some **law schools**, over 20% of the class uses Legal Authority to find positions. Your friends may not tell you about Legal Authority simply because law students are competitive by nature. Career services offices often do not talk about us that much either. If every law student used Legal Authority, then many career services offices would have very little to do.

The reason Legal Authority is so successful is simple. First, we will assist you in identifying every single employer that meets your specific interests in the area(s) of the United States you want to work in. Our database contains over 98% of all **legal employers** in the United States — over 750,000 legal employers. We employ over 25 people who do nothing but identify legal employers and hiring contacts inside these employers. They then classify this information based on type, size, and geographic location. Developed at a cost of several million dollars, no law school or other organization has a database that comes close.

Second, we will assist you in crafting a perfect resume and cover letter for the type(s) of summer or permanent positions you are seeking. We employ extremely skilled and trained professional resume writers who will spend the time to work with you personally to create for you a resume that makes you stand out. A good resume can make a tremendous difference in your job search. We craft more **law student resumes** than anyone in the world.

Third, we will provide you with complete printed and customized application materials to apply to the employers you select. All you will need to do is sign and stamp your application materials. The result of using Legal Authority is that your job search is as thorough, professional, and focused as it can be. There is nothing that can compare with our effectiveness. Some **law students** who have tried other job search methods without success and then used Legal Authority have gotten in excess of 20 interviews.

Legal Authority is the top means in the United States for law students like you to get jobs. If you use Legal Authority, you could be interviewing within the next few weeks.
