

The Three Step Process to Finding a Legal Job

I

Legal Authority has developed a three-part method to help lawyers just like you get their ideal jobs quickly. Here's how it works:

1. They find the perfect employer for you.

Legal Authority's database contains more than 98 percent of all legal employers in the United States— altogether, more than half a million **legal employers**. Developed at a cost of several million dollars, our database is monumental in scale, with a degree of accuracy that is unmatched by any other source, including **law schools** and job-search companies.

2. They create the perfect legal resume for you.

Once you have selected the types of positions and employers that you deem ideal, Legal Authority's **resume writers** will assist you in crafting a flawless resume and cover letter to your specification that will show potential employers how you're the perfect fit for their organization.

3. They give you all the resources you need to apply to every position that fits.

Once you're fully satisfied with your new resume and cover letter, **Legal Authority** will mail you as many copies as you need to forward to the employers you select. All you will need to do is sign your cover letters and stamp your envelopes.
