

Legal Authority

I

February 12, 2010

Legal Authority has helped thousands of attorneys find and land jobs - and the tradition will continue for a very long time without question. Legal Authority was developed in 2001 and for nearly 10 years has set the standard in helping attorneys find legal employment through self-marketing themselves. Legal Authority is a part of the Career Mission "family" of sites that are dedicated in helping people find jobs that are of interest.

Legal Authority is based on a set of principles that give Legal Authority over ever other attorney job search site out there: Contact every employer in a given market matching your interests, and you will (1) find every available position and (2) interview and go to work at the place that best matches what you are seeking financially and culturally.

When you do decide to sign up with Legal Authority you will also receive eBooks with a retail value of \$39.90 absolutely free. This includes the *Perfect Legal Job Search and Attorney Resume Secrets Revealed*. There are countless attorney job search related articles at your disposal under the Featured Advice section. You can read articles such as "How to Acquire the Best Legal Jobs", "The Art of Networking - A Guide to A Networking..." and "8 Things Not to Include on Your Resume." These are just a couple of the articles that are at your fingertips. We all need a little push in the right direction and Legal Authority can be the site that gives you the push.

Another aspect of Legal Authority that might have you thinking "This may be too good to be true." is that you can sign up for a "Free, No Obligation Resume Critique" and "Free Market Evaluation". If you would like to get to know Legal Authority and get straight to the point and know the "cold hard facts" then you can read Legal Authority's FAQ section. It should be noted that Legal Authority charges a nonrefundable \$250.00 membership fee, which covers the writing of your attorney resume and attorney cover letter.

If you would like to read peoples' success stories then you can click on the testimonial section. If you were skeptical about the site (which you shouldn't be) you can rest assured that you are in good hands because of the many attorneys who have found success with Legal Authority.

The job market can be a brutal place sometimes and there seems to be no hope of finding a legal job in sight. Legal Authority doesn't use words such as "can't" or "failure." Legal Authority uses words like "can" and "success" - you can find a quality legal position and you will be successful. You must remain positive and continue to put your resume out there.

There are many legal job search sites that make promises and say they will help you find a job. When you have been disappointed so many times it's hard to trust again isn't it? Legal Authority will make your attorney job search as easy as possible. If you need a change of scenery from your current legal job then give Legal Authority the opportunity to give you a new lease on life.
