

Legal Authority: Changing the Face of Attorney Employment

I

March 9, 2010

While numerous attorneys are seeking legal employment in a declining market, there have been very few sites that continue to find attorneys employment. Legal Authority is more than just a job search site but a "direct link to employers."

Since there are so many "casualties" in this type of work, it is necessary to maximize your opportunities for employment the best way you can. Legal Authority has a proven track record of assisting attorneys in finding legal employment in the worst of markets.

How come Legal Authority has so much success while others fail? Legal Authority has based its success on finding legal jobs that are missed by the general public, targeted mailing, legal employer database that is updated 24 hours a day, and an excellent client/ employment advocates service. With this type of foundation set, Legal Authority is vastly superior to many of the attorney employment sites you may have come across during your search.

The process of using Legal Authority itself is another reason why Legal Authority (along with those job seekers who use it) has become so successful for nearly a decade. In a nutshell, Legal Authority will contact every employer in your market matching your interests, you will then find available legal positions and receive an interview and start your new legal employment. You also have the option of searching contacts online and purchasing them by yourself or allowing one of the Employment Advocates to guide you through the selection and purchase process.

Legal Authority also offers a free no obligation legal resume and legal cover letter evaluation. Once you do become member of Legal Authority, a Legal Authority Resume Professional will assist you to ensure your resume and cover letter are in tip-top shape before it is distributed to potential legal employers. As a Legal Authority member, you will receive free service of Attorney Resume's Platinum Package (which is worth \$365) and includes resume editing, cover letter creation, one additional focused resume, and one additional focused cover letter.

Many job-posting sites charge a flat rate fee to introduce you to a legal firm, but Legal Authority takes a different approach and uses The "Per Employer" Charge. The Per Employer Charge plan cost will determine how many contacts you tend to seek out. For example Legal Authority prices less than 150 contacts at \$2.95 each. If you contact in excess of 500+ then the prices decrease to \$1.95 per contact. Legal Authority does not hide costs or charge you hidden fees at any time. All of Legal Authorities prices are available directly on the Legal Authority site.

Legal Authority's Legal Outplacement Program is another valuable service offered to those seeking to scale down members of their workforce and aid them into a different career direction. This type of service will help in the restructuring of your organization and assist you in creating a better, more efficient company. Legal Authority's Legal Outplacement Program isn't commonly offered by companies such as Legal Authority.

The "1,000 Guarantee" Legal Authority offers ensure that if you do not get at least 5 interviews within 90 days of using Legal Authority's service, Legal Authority will Federal Express you the same number of letters, contacts you purchased (up to \$1,000 worth) if you contact legal Authority for more help between 90 and 120 days. The offer expires 120 days after the day your letters are dated.
